Review of operations

Exploration

The Company is currently undertaking exploration at the Rawbelle Project in Queensland which is approximately 30 km to the west of Monto in southern Queensland. Monto is a town of 1,700 people around 110 km south of Gladstone, a deep water port. There are now six contiguous Exploration Permits for Minerals (EPM) and Applications (EPMA) - EPM 14628, 15920, 15921 and 15922 and EPMA 17001 and 17002 west of Monto and two contiguous EPMs, namely EPM 14627 and 15919 which are situated approximately 20 km to the south of the first group. These are all 100% held by the Company.

These EPMs host a number of prospective areas or prospects called Whitewash, Juicy Fruit, Noddy's Creek, Kiwi Carpet, Kildare, Trevethan, Bulls eye and Anomaly 7B. The Company has ranked these prospects as future development, advanced and grass roots depending on the amount of work that had been done on them. Whitewash has been determined to be the Company's future development project with available assay data from the existing twenty pre-IPO drill holes being augmented by infill drilling during this six month period. An independent consulting group are assessing assay data from over 47 drill holes at Whitewash in order to provide a maiden resource in the near future. A limited number of drill holes have been completed at Kiwi Carpet, Juicy Fruit and Kildare.

The Company during the period acquired a new EPM from Goody Investments and also applied for two new EPMs. These new tenements are contiguous with EPM14628 which hosts the Whitewash prospect and is currently being drilled and they increase the area of tenements from 360 sq kms at IPO to over 900 sq kms presently.

Directors' report (continued)

Financial Position

The net assets of the Company at 31 December 2007 were \$17,148,717 including cash of \$8,395,964. The Company's financial position has enabled the Company to place cash on deposit thus providing good earnings from interest payments. The directors believe the Company is in a strong and stable financial position to continue its current exploration operations.

The Company's opening share price at listing on 14 June 2007 was \$0.26 per share. During the period ended 31 December 2007 the share price varied between \$0.11 and \$0.26. The closing share price at 31 December 2007 was \$0.165.

Significant Changes in State of Affairs

There were no significant changes in the state of affairs of the Company during the financial period.

After Balance Date Events

There have been no significant events after the balance sheet date.

Future Developments, Prospects and Business Strategies

After 31 December, 2007 the Company has engaged in additional infill drilling at the Whitewash prospect, with a total of 54 drill holes completed to date. These drill holes will provide more data on the grade and tonnage at the Whitewash development prospect. The maiden resource figure will be released in the next four weeks and during the next twelve months the Company is programmed to complete enough drilling at Whitewash to provide the data to extend the resource into various categories, as well to explore the other advanced prospects using geophysical methods and then drill test any newly discovered prospective zones. At present we are in discussions with airborne geophysical contractors to assess the availability of aircraft to perform magnetic measurements over the project areas. As well another contracting company are preparing to acquire geophysical gravity data over a number of the prospects at Rawbelle.

The following developments are intended to be implemented in the near future:

- (i) Continue to drill test and survey all of the individual prospects in the Rawbelle area as foreshadowed in the Company's Prospectus dated 21 March 2007.
- (ii) Continue and, as appropriate, advance discussions with groups from Asia wishing to conclude off-take agreements with the Company to facilitate the purchase of minerals (especially molybdenum) from projected production from the Rawbelle area at Monto, Queensland.

Directors' report (continued)

Environmental Issues

The Company's operations are subject to significant environmental regulation under the law of the Commonwealth and State. Details of the Company's performance in relation to environmental regulation are as follows:

The exploration undertaken at Rawbelle to date has not created any significant environmental issues. However, environmental issues will arise as and when the Company moves into production and these issues will be thoroughly assessed at the time any mining authority is sought. The work undertaken to date has produced minimal impact on the environment. No issues regarding compliance were encountered during the reporting period.

Lead Auditor's Independence Declaration under section 307c of the Corporations Act 2001.

The lead auditor's independence declaration is set out on page 11 and forms part of the directors' report for the six months ended 31 December 2007.

Dated at Gold Coast this 28th day of February 2008.

Independent auditor's review report to the members of Aussie Q Resources Limited

Report on the financial report

We have reviewed the accompanying interim financial report of Aussie Q Resources Limited, which comprises the interim balance sheet as at 31 December 2007, income statement, statement of changes in equity and cash flow statement for the interim period ended on that date, a statement or description of accounting policies and other explanatory notes, and the directors' declaration set out on pages 4 to 10 of the Company.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation and fair presentation of the interim financial report in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the Corporations Act 2001. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the interim financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express a conclusion on the interim financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of an Interim Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the interim financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the Company's financial position as at 31 December 2007 and its performance for the interim period ended on that date; and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the Corporations Regulations 2001. As auditor of Aussie Q Resources Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

For personal use only

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the interim financial report of Aussie Q Resources Limited is not in accordance with the Corporations Act 2001, including:

- (a) giving a true and fair view of the Company's financial position as at 31 December 2007 and of its performance for the interim period ended on that date; and
- (b) complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the Corporations Regulations 2001.
