

New Executive Appointments

Aeon Metals Limited (ASX: AML) (**Aeon** or the **Company**) is pleased to announce new additions to its senior executive team.

Mr Jeff Botting has been appointed Project Manager for the Walford Creek Project and is set to commence on a full-time basis with Aeon on 20 September 2021.

Mr Peter Woodhouse has been appointed Exploration Manager and is set to commence on a full-time basis with Aeon on 5 October 2021.

Mr Dan Johnson, Aeon's incumbent Exploration Manager, has resigned after 12 years of service with Aeon and is set to finish up at the end of August 2021.

Aeon Managing Director and CEO, Dr Fred Hess, commented:

"Jeff joins Aeon in the newly created role of Project Manager, a reflection of our growing confidence in the new direction of the Walford Creek Project development. Jeff has accumulated over 15 years of mining project experience in both study and execution roles, most recently as BHP Coal Client Manager for Worley."

"Peter is an exploration geologist with over 16 years of experience and was most recently Exploration Manager for Alligator Energy. Peter joins Aeon at a time of intense geological interest in Walford Creek and of renewed focus on our regional exploration opportunities."

"Dan has been instrumental to Aeon over the past 12 years, both in resolving the disposition of the Walford Creek Project mineralisation and in substantially increasing its known extent. This work culminated in the recent exciting news that completion of further detailed geophysical work has highlighted key new target areas for drilling. I would like to thank Dan for his service and wish him well for the future."

This ASX release has been authorised for and on behalf of the Aeon Board by:

Dr Fred Hess, Managing Director and CEO
